Re: National guard, police and mercenaries attack on Water Protectors in Standing Rock!
Urgent Action is needed

Please contact Jade Begay, Dallas Goldtooth's Communication Coordinator Jade.begay@gmail.com

Dear Danny, Charles, Willie, Bob, Levi, Roberto, Pamela, Earth Guardians, Greetings old colleagues. I am contacting you to let you know of a dire emergency in Standing Rock. PLEASE HELP! The situation is urgent!

LIVESTREAM PLEASE Check out: <https://www.facebook.com/kevin.happyhappy/videos/1806825289589975/>
<https://www.facebook.com/unicornriot.ninja/videos/377835235884037/>

We are now LIVE here : <https://livestream.com/unicornriot/events/6668525>

Please help! Water protector just got hit in head with beanbags & split his head wide open...they're firing shots into the crowd. People are getting severely hurt.

On Highway 1806 in Standing Rock on a Sunday night on purpose! The water protectors are asking for your urgent intervention and the assistance of your colleagues to protect public health of protectors at Standing Rock under assault tonight and crying out for help. THIS IS HAPPENING NOW: They're are being assaulted with 3 mobile water cannons on unarmed water protectors at below subzero temperatures.

People are trapped. They are vomiting and urinating in their pants from the amount of tear gas they have inhaled. It is 26 degrees there and they are risking lives. This was strategic. An elder is in critical condition. This is an act of deadly force. Is causing hypothermia!

THESE UNARMED PEOPLE ARE BEING PENNED IN & SHOT AT AND NOW THERE IS NO WAY TO GET MEDICS IN. SHOOTING ROUND AFTER ROUND OF TEAR GAS & THEY HAVE THE PEOPLE TRAPPED.....JUST HEARD THAT SWAT IS GOING IN. They have both sound cannon and microwave attacks. Microwave fires radiation that make skin burn and with L-Rad sound cannons, the sound is disorienting and deafening. Now they are dropping something oil-based onto the people from low flying planes without lights. The people are in an enclosed space and cannot leave so they are inhaling tear gas and are attacks.

LIVESTREAM: Unarmed water protectors are being penned in and shot at with rubber bullets. Now there is no way to get Medics in. They are shooting round after round of tear gas and they have people trapped. Medics cannot even come in. Just heard that SWAT is coming in. This insanity has to stop! People are going to die here in an enclosed space and the people cannot move so they are inhaling tear gas and medics cannot come in.....

LIVESTREAM: Police are tear gassing #NoDAPL water protectors, using the LRAD, stinger grenades, and firing less-lethal rounds into the crowd on Highway 1806 bridge in North Dakota. Multiple reports of serious injuries, including one person who was badly injured after being shot in the head with a rubber bullet. One of our reporters had their press badge shot off when shot in the abdomen with a rubber bullet. Report of seizures after being tear gassed. Medics rushing blankets and emergency supplies to frontline. Police have shot down 3 drones in the last few hours.

Police have formed a line with armored vehicles, concrete barriers, and razor wire. It's 24° and police have been hosing down the unarmed crowd with a water cannon for hours now. Water protectors used a semi truck in an attempt to remove burnt military vehicles which the police chained to concrete barriers weeks ago to keep the bridge blocked on 1806.

Please contact Jade Begay, Dallas Goldtooth's Communication

Coordinator Jade.begay@gmail.com, and Kevin Gilbert who did the livestream, Dallas Goldtooth, and John Eagle Senior via Facebook Messenger. And contact Rita Sebastian, legal observer, Red Owl Legal Collective, National Lawyers Guild at (857) 204-5653

Right now, the livestream is our best communication. I will keep you updated. Please help!
